

Is food safety compliance dragging you down?

Our Story

Azzule and PrimusLabs have developed a series of cloud and web-based tools and services – the Standard Supply Chain Program (SCP), and the Premium Supply Chain Program (PSCP) – that offer assistance in complying with the Food Safety Modernization Act (FSMA), such as the Foreign Supplier Verification Program (FSVP) as well as customer expectations.

Our tools are designed to allow the sharing of food safety data throughout the supply chain so that, once generated, the information required by the FDA or your buyers can be accessed and archived by all participants in the supply chain. The whole system allows tracking of supplier compliance and provides a means for presenting compliance during an FDA, buyer, or third party audit.

AZZULE CAN HELP

What we offer.

- Standard Supply Chain Program (SCP), a cloud-based system that is established free of charge with users being billed only when uploading and transferring audits.
- Premium Supply Chain Program (PSCP), a subscription-based program designed with enhanced automated transfers, management tools, and notification services for your staff and your suppliers

	Use of PrimusLabs and Azzule logos	Not included	Included
	Blockchain(s) API transfer	Additional fees may apply	Additional fees may apply

* PrimusGFS and Primus Standard Audits are automatically uploaded for audit owners to their corresponding SCP and Premium SCP accounts at the cost of the audit company performing the audit. This applies to some audit companies performing GlobalG.A.P., who participate in Azzule data management programs.

** A fee cap has been established for some receiving customers participating in high volume Azzule Supply Chain Programs. This fee cap limits annual expenses for the sender to \$1200 in "send" transaction fees to one of the participating customers. If you have multiple customers with this fee cap then the fee cap is established per each customer.

*** Laboratory testing done by PrimusLabs is automatically uploaded to the corresponding SCP and Premium SCP accounts.
